RESOLUTION OF THE FIRST CONGRSS OF PEOPLES ALLIANCE FOR FREEDOM AND DEMOCRACY (PAFD)

Peoples Alliance for Freedom and Democracy (PAFD) held its first successful general congress from March 21st to 25th 2016 in Eritrean capital, Asmara. The Congress has discussed the status of our collective struggle in particular, the current situation in Ethiopia, the Horn of Africa and the world in details.

PAFD is a political alliance united for the struggle to free the oppressed peoples in Ethiopia and its has been established on the 23rd of October 2015 in the Norwegian capital, Oslo by five different political organizations namely –Benishangul Peoples Liberation Movement (BPLM), the Gambela Peoples Liberation Movement (GPLM), the Ogaden National Liberation Front (ONLF), Oromo Liberation Front (OLF), the Sidama National Liberation Front (SNLF) and representatives from Women and youth. The alliance is determined to uproot the current oppressive minority regime in order to safeguard and advance peoples' rights to exercising genuine self-determination.

The situation in Ethiopian Empire is deteriorating day by day whereby the dictatorial Ethiopian regime lead by TPLF/EPRDF's government is evicting, harassing, imprisoning civilians without due process of law and intensifying wonton killings.

The military and security apparatuses of the government is firing on a peaceful demonstrators in most parts of the country in general in the Oromia region in particular. Denial of political rights of people has already led to mass uprising in different parts of the county in general as we speak. In its attempt to suppress the peaceful resistances and struggle, the TPLF/EPRDF's government resorted to responding to peoples' peaceful quest with violence and creaked marshal law.

Additionally, its response is also become evident as it is implementing various forms of brutalizing methods. It also continuously uproots people from their ancestral lands by excessive force and killing innocent civilians including children and pregnant women. Regardless of strong people's opposition and international criticism to such illegal and inhumane policy the regime, continues with implementing its harsh policy using international aids as a political weapon.

The regime continue to violet freedom of press, policy of land grabbing, exploitation of natural resources, instigating conflicts among different Nations and nationalities to insure its grab on power.

After hearing report from temporary committee formed on founding conference, the chairmen of the five organizations and the participants of the general congress have discussed and analyzed the success, weakness, opportunities and possible treat the alliance might be facing during the course of its

operational activities. After deliberation on founding documents, future political, diplomatic and military activities, the congress has ratified PAFD's working documents.

The General congress also discussed and strategized about the future direction of the alliance activities and clearly instructed its executive committee and all other functional bodies.

The General congress also elected its chairman, two vice chairmen, Executive committee members and head of different functional bodies to carry out the operational tasks of the alliance. After assessing the current situation of the Ethiopian Empire, the Horn of Africa and wider global affairs the PAFD's General Congress calls upon:

The peoples of our member organizations to be unconditionally united to resist and intensify their legitimate struggle to achieve their unalienable rights denied to them by successive Ethiopian rulers including the current one.

The Ethiopian Regime to unconditionally stop the killing of unarmed innocent civilians, imprisoning without due process of law, looting natural resources of oppressed nations and people and media blockage,

The military and security apparatus to stop the killing of innocent civilians and we urge it to stand with people to end the TPLF/EPRDF's brutal rule.

All political organization in the Ethiopian empire to stand shoulder to shoulder to fight the dictatorial regime in Unisom. Furthermore, PAFD invite's all opposition groups who are struggling for freedom, justice, equality and democracy to unconditionally join the alliance.

The international community to respect the wishes, desires and rights of all the nations and peoples in Ethiopia, and stop supporting the dictatorial regime before the current situation becomes totally uncontrollable.

We also ask the international Community to exert their influence in bringing those responsible massacring innocent civilians to justice.

Finally, PAFD strongly condemn the illegal use of aid given to the people who are in great need, and preventing them from acquiring other means by blocking trade and denying access to all humanitarian assistances. Furthermore, we condemn soliciting aid for regimes political purposes created by evicting endogenous peoples from their fertile land and chartering it to the so called foreign and ruling class investors.

Peace, Democracy, Freedom and Genuine rights of peoples to Self determination!
